RESEARCH INTERESTS

Signal processing, time series analysis, machine learning.

EDUCATION

Columbia University, New York, NY, US — **Sept. 2013 - May 2019**
Ph.D. in *Department of Electrical Engineering*
- GPA: 4.06/4.00
- Advisor: Prof. John Paisley
- Thesis Title: Dynamic Machine Learning with Least Square Objectives

Columbia University, New York, NY, US — **Sept. 2013 - June 2015**
M.Phil. in *Department of Electrical Engineering*
- GPA: 4.06/4.00

Bilkent University, Bilkent, Ankara, Turkey — **Sept. 2011 - July 2013**
M.S. in *Department of Electrical and Electronics Engineering*
- GPA: 3.96/4.00
- Advisor: Prof. Sinan Gezici
- Thesis Title: Noise-Enhanced Detection in Restricted Neyman-Pearson Framework

Bilkent University, Bilkent, Ankara, Turkey — **Sept. 2007 - June 2011**
B.S. with High Honors in *Department of Electrical and Electronics Engineering*
- GPA: 3.92/4.00

PROFESSIONAL EXPERIENCE

Verizon Media, Sunnyvale, CA, US
Research Scientist — **July 2019 - Present**
Focus on various aspects of the Demand Side Platform (DSP) for advertising: developing various machine learning models for click/conversion prediction, metric selection and evaluation, and obtaining data-driven insights for the various challenges brought by the platform.

Amazon A9, Palo Alto, CA, US
Machine Learning Intern — **May 2018 - August 2018**
Developed optimization methods for ad click prediction and auction problem; conducted analysis on Amazon's online ad data; showing significant improvement compared to the current production model.

Yahoo! Research, Sunnyvale, CA, US
Machine Learning Intern — **May 2017 - August 2017**
Designed and implemented a new ranking algorithm which is suitable for cost-sensitive/imbalanced learning problems. The algorithm efficiently scales to very large datasets and gives improved AUC scores compared to existing benchmarks on Yahoo data, for ad click prediction task.

Goldman Sachs, New York, NY, US
Summer Associate — **May 2015 - August 2015**
Worked on a variety of data analysis and pattern classification tasks—applying cutting-edge machine learning methods—on large scale trading data.

Columbia University, New York, NY, US — **Sept. 2013 - Present**
Research & Teaching Assistant in *Department of Electrical Engineering*
Extensive experience in developing novel machine learning algorithms on a variety of real-word datasets, and publishing papers.

HONORS & AWARDS	• Columbia University Edwin Howard Armstrong Ph.D. Fellowship • TUBITAK M.S. Fellowship • Bilkent University Graduate Scholarship • Bilkent University Outstanding Undergraduate Scholarship • Columbia University: Special A+ grade from two courses. • Bilkent University: High Honors Student title, one of the highest graduation GPAs, Top 10 Ranking (7th place) among 143 students in the undergraduate program, and special A+ grade from two courses. • Top 1000 Ranking (788th place) by quantitative score in the nationwide graduate school examination (ALES) among 249,472 candidates.

COMPUTER SKILLS

- Frequent use: Python (with Numpy/Scipy and Tensorflow), Matlab
- Familiar with: Java, Hadoop, Hive, R, c++
- LaTeX, Office Suite, HTML

RELATED COURSEWORK

- Machine Learning, Advanced Machine Learning, Convex Optimization, Computational Statistics, Detection and Estimation Theory, Random Processes, Advanced Signal Processing, Wavelet Theory, Nonlinear Systems, Power System Analysis, Digital Communications Theory, Wireless Communications, Communication Network Analysis, Internet Architecture and Protocols, Digital Signal Processing, Telecommunications I-II, Computer Networks.
